

It has come to my attention that K-LOVE radio is in jepordy of loosing one or more of it's frequencies of 91.3, 106.3, and 92.1. This is the only station my wife and I and our four children listen to. I play it 8 hours per day at my dental office and in all of our cars. The signal is so weak we must switch stations from 91.3 to 106.3 when we are in North East San Antonio. We listen to K-LOVE because it supports wholesome values that we feel are lacking on all other stations in this area and it has a positive and encouraging impact on my community. Please do not let our beloved K-LOVE be displaced.

Thank You,

Paul G Wilke DDS
